

Cage Making Mesh

Fencing Solutions / Aviaries & Cages

- Ideal for permanent housing small-medium animals
- Roll size makes cage 1.5m x 1.0m x 0.6m
- Heavy duty, high strength wire
- Manufactured from galvanised wire

50MM X 25MM (2" X 1") RECTANGULAR APERTURE

Whites Cage Making Mesh (50 x 25mm) has been developed to provide a sturdy, long lasting cage. It is the ideal choice for permanent housing of small to medium size animals.

The increased aperture provides good viewing and the 8m roll length is the perfect size for making a cage 1.5m x 1.0m x 0.6m.

Cage Making Mesh is also suitable for many other uses. Please take into account wire diameter, aperture and roll size when selecting mesh for your project.

Code	Product Description	Height	Aperture	Wire Dia.
21030	Cage Making Mesh - 8m	60cm	50mm x 25mm	2.00mm

Note: It is recommended that new galvanised wire mesh used in aviaries and pet cages be treated to remove excess zinc that could possibly harm the pets. Shave off any zinc spikes with a utility knife. The mesh should then be scrubbed with a mild solution of vinegar (2 cups in a bucket of water), and rinsed with clean water.
