

Deterrent Tapes

Outdoor Essentials / Pest Deterrents

- Safe and humane pest deterrent
- Effective for day time use and in the breeze
- Ideal for vegetable gardens and fruit trees

EASY TO INSTALL DETERRENTS

Whites offers effective, easy to install, cost-effective and humane tape products to keep birds off veggie gardens, fruit trees, crops and lawns:

Whites Scare Tape reflects sunlight in the breeze, while also producing a crackling sound that deters birds. Available in Holographic and Red & Silver.

- Installation: For veggie gardens string over crops or tie strips to stakes, keeping spacing to a maximum of 3 metres. To deter birds from fruit trees, tie long strips onto outlying branches. Also ideal for grapevines.

Whites Humming Tape vibrates in the breeze emitting a humming which drives birds away. The sound changes depending on the wind, so birds do not become accustomed to the noise.

- Installation: Set stakes in your veggie garden 3-6 metres apart. String tape taut between stakes. For best results vary line heights and angles.

Code	Product Description	Size
18412	Scare Tape - Holographic	19mm x 30m
18419	Scare Tape - Red & Silver	25mm x 15m
