

## Garden Stakes

### Plant Support / Plant Stakes

- Provide strong support for growing plants and trees
- Weatherproof plastic coating for durability
- Ribbed sides keep ties in place
- Robust steel core for strength
- Sealed tips with point for easy insertion into soil

### STRONG AND DURABLE SUPPORT FOR PLANTS

Whites Garden range of green PVC coated steel stakes are ideal for providing strong support for growing plants and trees. Designed with ribbed sides to help keep ties in place, these stakes are also sealed at the tips to ensure they are easy to drive into most garden soils. They feature a sturdy steel core for superior strength in outdoor conditions.

Also available in red PVC coated with an 11mm diameter, ideal for tomatoes or for added colour in the garden!
