

Garden Up Grande Wall

Garden Up / Wall Mount

- Water-smart design
- Ideal for backyards and balconies
- Suitable for herbs and potted colour
- Quick and easy to set up

PLANT WHAT YOU WANT, WHERE YOU LIKE!

Turns any wall, fence or vertical space into a living, growing Green wall or edible garden.

Whites Garden Up Grande Wall is a simple wall mounting solution and accommodates most spaces, small and large. You can personalise your backyard or balcony with your choice of edible crops such as herbs, salad leaves and strawberries or an attractive floral display.

With its modular system, you can simply add more vertically or horizontally to expand your garden display. Simply screw into place on any vertical surface (mounting hardware varies by surface - not included).

The smaller [Garden Up Petite Wall](#) offers different size options in the same style; mix and match them to add greater interest to your vertical garden wall.

Featuring a water-smart design with an integrated saucer, it conserves excess water and prevents over-watering.

Code	Product Description	Size
18429	Garden Up Grande Wall - Charcoal	390mm x 162mm x 170mm
18058	Garden Up Grande Wall - Latte	390mm x 162mm x 170mm

Handy Hints:

- Use a premium quality potting mix (Australian Standards logo with four ticks) and water regularly.
- Depending on your plants, it's best to maximise the amount of natural light by positioning the plants in a sunny, north facing position.
- Always ask your gardening expert for the best plant varieties to suit your region and time of year
