

Mouse Mesh

Fencing Solutions / Aviaries & Cages

- Suitable for mice, guinea pigs and small birds
- Hot dip galvanised for maximum corrosion protection
- Small aperture of 6.5x6.5mm
- Very lightweight at 0.60mm wire diameter

6.5MM (1/4") SQUARE APERTURE

Whites Mouse and Snake Mesh is ideal for building aviaries for small birds such as finches. With a small aperture of 6.5 x 6.5mm and 0.60mm wire diameter, it is perfect for protecting the bottom of your aviary or cage from unwanted vermin.

It comes in standard 30m packs and is available in convenient 5m and 10m packs for smaller jobs.

Be sure to take into account wire diameter, aperture and roll size when selecting mesh for a project.

| Code | Product Description | Height |
|-------|-------------------------------------|--------|
| 20014 | Mouse and Snake Mesh - 5m HandyPak | 90cm |
| 20018 | Mouse and Snake Mesh - 10m HandyPak | 90cm |
| 20016 | Mouse and Snake Mesh - 30m | 90cm |
| 20019 | Mouse and Snake Mesh 30m | 120cm |

Note: It is recommended that new galvanised wire mesh used in aviaries and pet cages be treated to remove excess zinc that could possibly harm the pets. Shave off any zinc spikes with a utility knife. The mesh should then be scrubbed with a mild solution of vinegar (2 cups in a bucket of water), and rinsed with clean water.

Handy Hint:
