

Protective Shade Grow Tunnel

Outdoor Essentials / Pest Deterrents

- Provides shade during summer
- Easy DIY installation
- Protects plants against pests etc.

PROTECTS PLANTS FROM HARSH SUN

Whites Protective Shade Grow Tunnel provides a shaded environment for plants during hot summer months while also protecting plants against insects, birds, animals and pests.

It features an easy to install knitted cloth cover that can simply be lifted for easy access to your plants.

When built, the tunnel stands approximately 500mm from the ground to the highest point of the roof.

Ideal for cucumbers, squash, beans, root vegetables and annuals, the kit includes:

- 5 arch support sections
- 1.5m x 5m* knit cloth cover (* measurement of the fabric when laid flat)
- 10 cover clips
- 2 ground pegs

Code	Product Description	Height
