

Ribbed Reinforcing Bars - Long

Building / Concreting

- Ideal starter or joiner bar for concreting
- Available in 12mm cold-rolled or 16mm heavy duty

VERSATILE STARTER OR JOINER BAR

Whites Reinforcing ribbed bars are commonly used to tie reinforced masonry or concrete walls to slabs or footings.

The ribbed profile improves bonding to concrete and minimises concrete cracking, in comparison to smooth wire profiles.

| Code | Product Description | Size |
|-------|-----------------------|---------------|
| 71666 | Rib Bar - Cold-rolled | 12mm x 1800mm |
| 71675 | Reo Bar - Heavy duty | 16mm x 1800mm |

Handy Hints:

- For tips concreting, see our information sheets above or [click here](#) to go to our videos page and scroll down to "[Laying a Concrete Slab](#)".
